*Paphiopedilum
sanderianum*

ESTABLISHED
1990

*Are you a Slipper Orchid
fanatic, or do you just
want to grow them better?*

Yes?

*Then you should join a so-
ciety whose members enjoy
sharing information on all
aspects of these beautiful
and sometimes bizarre
plants.*

The British Paphiopedilum Society

was formed in August 1990. It currently has a membership of 130, drawn from counties throughout the world and at all levels of knowledge, from novice through to professional.

The Society holds an Annual General Meeting usually in January at Solihull Saturday and Sunday.

At each meeting there are Guest Speakers, Discussion Forums, a Table Show and Plant Sales.

Cultural and Habitat information, given by the speakers and members is invaluable for successful growing and this is accompanied by superb slides.

Since 1990, the Society members have enjoyed around 60 "World Class Speakers", including experts like:-

- **Dr. Phillip Cribb (Royal Botanic Gardens, Kew, UK);**
- **Masayoshi Takahashi (Tokyo Orchid Nursery, Japan);**
- **Dr. Guido Braem (Schlechter Institute, Germany);**
- **Roelie van Rooyen (Van Rooyen Orchids, South Africa);**
- **Prof. Leonid Averyanov (St Petersburg, Russia);**
- **Jerry Fischer (Orchids Limited, USA).**

A colourful quarterly Journal is sent out to each paid up member, which reports on events, talks and forthcoming activities. It is sent by Airmail to members outside Europe.

Phragmipedium pearcii

Would you –

Enjoy experts like those listed to show you *just how to grow your Slipper Orchids to perfection?*

Take an active part in discussions with a cast of *the very best?*

Find out more about the natural habitats of this *superb and exciting group of orchids?*

Have the opportunity to purchase plants from our Trade Members and our visiting *world class speakers?*

Enjoy a relaxing weekend away with your partner with fellow *Slipper Orchid Enthusiasts?*

Then you need to join –

THE BRITISH PAPHIOPEDILUM SOCIETY

And share in all these opportunities and more
